

IPC-CFX Implementation Roadmap

Show the electronics industry your commitment to IPC, helping the industry with **IIoT**. Using this form, provide the electronics industry your plans for **IPC-CFX implementation** in your equipment and/or within your organization.

IPC will post all submitted **CFX roadmaps** to www.ipc-cfx.org and communicate the availability of these roadmaps to industry. Roadmap pages will include a link to your company website. Using the form below, provide your organization's CFX roadmap plans. Include a summary statement and planned dates (month/year) for implementation.

IPC will post this information on the **IPC-CFX Website** for all companies that provide their **CFX Implementation Roadmap**.

Please return the document to chrisjorgensen@ipc.org or mikemilostan@ipc.org.

Complete all information below:

Company Name:	Company location (if implementation roadmap applies to a specific site):
First Name:	Last Name:
Job Function:	Email address (company):
Phone Number (company):	Signature:

Our company is committed to the following roadmap for CFX implementation:

(Select or Highlight all that apply)

- OEM
 EMS
 Software provider
 Equipment supplier

OEM/EMS Companies: Provide a summary statement of your roadmap timeline for your CFX implementation plans.

Software Providers: Provide a summary statement on your roadmap for CFX messages you will consume and the solutions you provide or will provide (e.g., MES) to support CFX.

Equipment vendors: List the equipment model number, date of implementation and CFX topics your equipment will support by that date.

Model #	Implementation Date	IPC-2591 CFX Topics That Will Be Supported
